

BABY GLORIA CARUSO APPROVES HER FATHER'S BIOGRAPHY. The first copy of Pierre V. Key's story of the life of his friend, the late Enrico Caruso, was presented to the widow of the great tenor.

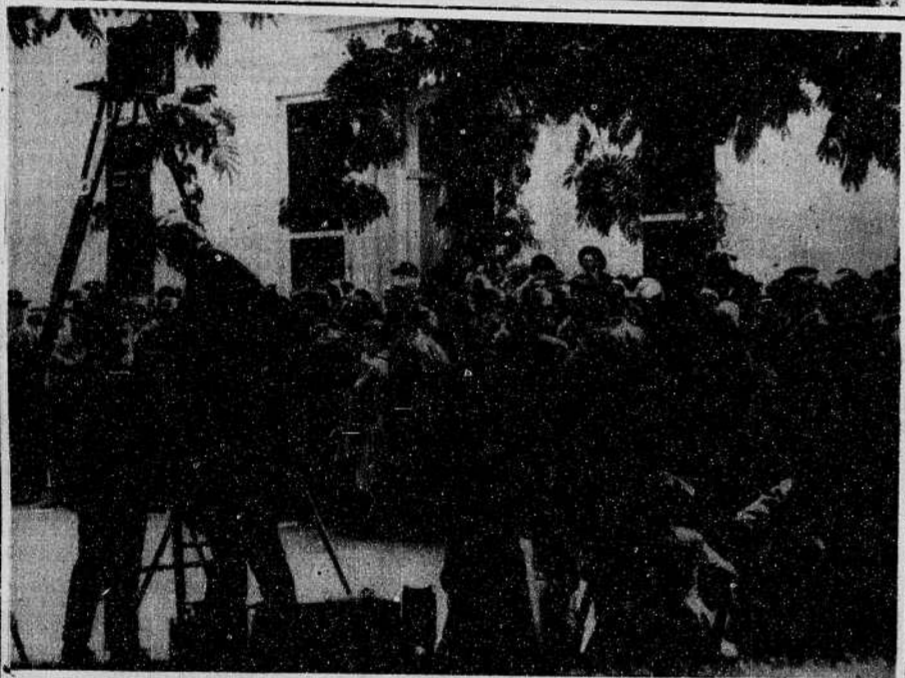

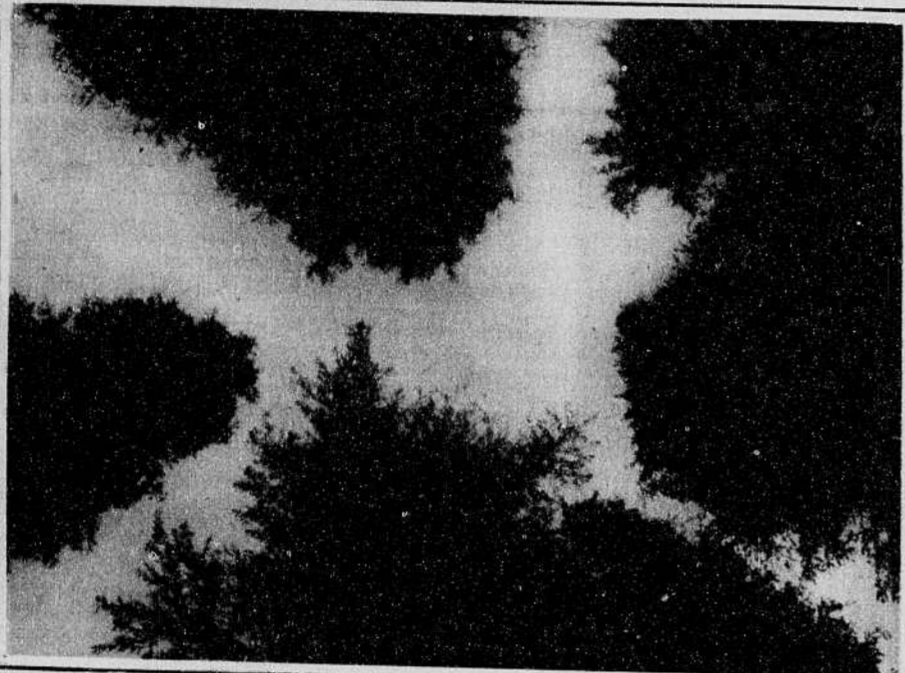

Underwood

ZERO JOB NO. 7. Working on the "graveyard shift" collecting letters isn't the sort of job the correspondence schools are telling about in their advertisements. Somebody has to do it, though, and the mail boxes are emptied every night, as per schedule, by faithful men in gray. Eight hours of this sort of work, sometimes carrying 100 pounds of mail in cold and stormy weather, gives one a good appetite, anyway.

A SKY GLIMPSE. Looking up through columns of giant trees in the West. This picture was taken by pointing the camera directly upward, in a heavy growth of timber. It gives a good idea of the difference in the growth of Douglas fir and Engelmann spruce. The spruce has a heavy, cylindrical crown, while the fir is diffuse. These trees often attain a height of 200 to 500 feet.

QUIET DAY AT WHITE HOUSE. Pictorial news of Presidential affairs is eagerly awaited by the public. This picture shows a common scene outside the executive mansion. When visiting delegations emerge the crowd is pushed aside and the celebrities are lined up for the cameramen. President Harding is very obliging in such matters, and often accedes to the request that he be photographed also.

Some people keep it—

Now Science says:

No one should lose the joy of real health

We have all known people—some in their forties and fifties—who still keep the vigor and animation of youth.

Yet many of us—nervous, "run down," irritable even in our twenties and thirties—fear we have lost it forever.

Why the difference?

Health and vitality should be *natural*, not exceptional; sickness and weakness are always due to some violation of Nature's law.

The two most important needs in the world

What we call "life" is really a double process. First, the living cells that form our bodies must be constantly fed and nourished. Second, the poisonous waste products that accumulate must be regularly removed.

Check either of these processes even temporarily, and the body is weakened. Premature age, intestinal disorders, skin disturbances, and all the ills we attribute to "run down condition" are the result.

The fresh, living cells of Fleischmann's Yeast contain a natural food—with the very elements which help the body perform these two vital functions: help it to *secure its proper nourishment*, and help it to *keep the system clean*.

Like any other plant or vegetable, yeast produces the best results when fresh and "green"—not dried or "killed." Fleischmann's Yeast is the highest grade living yeast—always fresh.

"Nervous, 'run-down,' irritable—even in our twenties and thirties"

Fleischmann's Yeast is a *food*, not a *medicine*. It does not act overnight—Nature does not work that way. Results cannot be expected unless it is eaten regularly. Eaten regularly day after day, it helps to "tone" up the whole system and assures regular daily elimination.

Eat it plain—or spread on crackers—or mixed with water or milk

FLEISCHMANN'S YEAST

builds health naturally and permanently

Corns Go

Just say
Blue-jay
to your druggist

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it!) and in extra thin plasters. The action is the same.

Pain Stops Instantly

At Last You Can Have Home Motion Pictures as Low as \$3.00 a Week

There can be no more enthralling, heart-grIPPING, laughter-provoking entertainment than showing motion pictures in your own home. They appeal to the interest of every member of the family, from baby to grandmother.

The New Premier Pathscope has long been found in the homes of the wealthy—the "Rolls-Royce" of home entertainers.

Now we have completed arrangements that enable *everyone* to have his own motion pictures and to view, in his own home, the treasures to be found in the thousands of reels that compose the great Pathscope Film

Library—the world's best Dramas, Comedies, Animated Cartoons, Scientific, Educational and Travel pictures.

You can now purchase from us motion picture projectors for from \$35 up, on easy terms, or rent them with privilege of purchase.

These projectors and films are absolutely safe for home use. Every picture is made on "Safety Standard," narrow-width film. Each film and projector bears the Approval Seal of the Underwriters' Laboratories, Inc., permitting it to be used without a fireproof booth by anyone, any time, anywhere.

Come to any Pathscope Salon—select your own pictures and put them on the screen yourself. No obligation, but you must act quickly before the limited supply of these machines is exhausted.
